INTRODUCTION

Expert Technology Solution (ETS) is established by the team of professionals who has vast experience and good will in their respected fields of business. Our aim is to provide complete technology base solutions with after sales support. Innovation and creativity are just the beginning. The bedrock of the company is meticulous attention to customer support.

ETS is a company, with a philosophy build on the cornerstones of quality and innovation. Our products offer the highest level of performance and reliability with our ultimate aim of achieving customer satisfaction.

We ensure our customers are always satisfied and truly benefiting from a professional implementation. We found that there are lots of solutions not properly addressing all the requirements of this market segment in the region. There were solutions, but not adequate or not properly integrated. There were solutions, just sold, but not properly serviced, since they came in from overseas. Then there were the solutions very highly priced, which most customer did not have room in their budget.

We have a simple philosophy: as our customers are successful, we will prosper with them. We have earned a reputation for integrity and honesty in the market place. We deliver what we say we will deliver and never promise what we cannot. Following are the few solutions that we are providing:

- Mobility Solutions (Hand Held Terminals)
- Barcode Solutions
- AIDC & IT Base Solutions
- RFID Solutions
- POS Retail & Industrial Solutions
- Time Attendance Solutions
- Access Control and Security Solutions
- Software Solutions
- Self Adhesive Labels
- Numbering Labels
- Thermal Transfer Ribbons

ETS's diverse capabilities ensure you of getting the most cost effective solutions and dependable products with after sales support provided by the dedicated team of ETS.

Mission Statement
